

HNC 3D Design Additional Costs

This document highlights the costs that students may have to meet in addition to their course fees and normal travel costs to attend lessons:

Clothing:

Students are not required to wear or purchase college-branded clothing, however, they are required to wear appropriate professional clothing for presentations with companies for their projects and other trade related exhibition events at their own expense. They are also required to wear appropriate clothing for use in the workshop area (for health and safety) and for preparing spaces for exhibition.

Primary Research trips:

Students are required to attend primary research trips during the course of their study. The travel arrangements and expenses for these events are the responsibility of the student.

Equipment:

Although, the college provides Macs, students need to complete coursework from home so they will need access to a Mac or PC to complete their coursework. All software required to complete their coursework is available for download from the College. 3D students are also required to have their own technical drawing equipment and rendering pens.
