1. Policy Statement

North Kent College (“the College”) is committed to providing an environment for students that actively provides equality of opportunity, freedom from discrimination and values the diversity of all students and prospective students. The College seeks to broaden the pool of potential applicants by raising awareness and expectations in line with its commitment to widening participation.

The College highly values the diversity and range of experience that prospective students contribute to college life. Applications are welcomed from all UK and EU Nationals. Recruitment and admissions processes aim to match the abilities, aptitude and aspirations of the student to the programme of study. The College is committed to recruitment and admissions processes which are fair, explicit and implemented consistently across its range of provision.

North Kent College aims to place their applicants on appropriate programmes with the support necessary for them to succeed. The admissions process will encompass a range of services, from the provision of information about programmes and services, through to the point of enrolment and beyond.

This policy applies to applicants and potential applicants to North Kent College’s accredited higher education programmes of study and is complementary to the Admissions Policies of the College's validating bodies and university partners. It is intended that the policy should uphold the principals outlined in the Schwartz Report on Fair Admissions (2004) and the Quality Assurance Agency's UK Quality Code.

It is the policy of NKC that:

- 1.1 The admissions process will provide a responsive and student-focused service, ensuring all applicants receive the appropriate advice, guidance and information that they need to apply for and enrol on the appropriate programme.
- 1.2 All prospective applicants will have access to impartial pre-entry advice, guidance and information about programmes, including fees and funding so that informed decisions can be made. Applicants should ensure that they have sufficient information on which to base decisions about programme acceptance and necessary support.
- 1.3 The admissions process for entry onto programmes will be clear and concise to prospective students.

- 1.4 All applicants will be considered on an equal basis, taking into account their academic record, potential, references, personal statement and experience.
- 1.5 Programmes and services will be promoted actively in the community to widen access and increase participation in line with the widening participation scheme.
- 1.6 The admissions process will have procedures which will enable the monitoring and evaluation of the quality of the provision.
- 1.7 The Admissions Policy will promote equality and diversity, and will be consistent and complementary to all other College policies.
- 1.8 It is the responsibility of the applicant to provide full and accurate information as part of the admissions process and to notify the College of any changes or corrections to their original applications.

The policy will be implemented in the following way:

- 1.9 The admissions process is clearly outlined in the Higher Education prospectus and the college website and due care and attention will be taken to ensure that all communications to potential students are clear and unambiguous.
- 1.10 Information and advice about programmes and entry requirements will be provided on the College's website and in the prospectus, with further information available from the Higher Education Information Officer and programme leaders if required. Every care is taken to ensure that the information contained in the College's publications (both paper and on-line) is accurate at the time of publication. However, in response to changing circumstances, the College reserves the right to cancel, change the entry criteria or, or alter the content of any programme. Where this is necessary, applicants will be advised at the earliest opportunity.
- 1.11 All prospective students who declare a learning difficulty or disability will be advised of the support available to them, including the process for applying for Disabled Students' Allowance.
- 1.12 Guidance is available in the Higher Education Centre to assist in the choice of the most appropriate programme of study and to get information and advice about fees and student loans.

- 1.13 At enrolment, all students will be provided with a copy of the Learning Agreement which they have signed, outlining the responsibilities of the College and the student.
- 1.14 The Admissions process is monitored through feedback and questionnaires and, where necessary, appropriate action is taken to address areas for development identified.
- 1.15 Programme Leaders are responsible for setting the entry criteria for their programmes in line with the college and awarding body requirements. This is reviewed by the HEDM in consultation with the Assistant Principal.
- 1.16 Decisions on applications are initially made by the programme leader, and reviewed by the HEIO before being processed. This takes into account:
 - 1.16.1 The applicant's potential to succeed on their chosen programme of study
 - 1.16.2 The applicant's actual or expected academic or professional qualifications and grades
 - 1.16.3 Relevant work or other experience
 - 1.16.4 The applicant's own statements of interest in the programme/subject
 - 1.16.5 References
 - 1.16.6 Where appropriate, an interview, portfolio or audition
- 1.17 The College reserves the right to limit the number of places on a programme in line with its allocation from the Higher Education Funding Council or validating university. For some programmes, there will be more applicants than places, and competition for offers is unavoidable. In such cases, the college may offer an alternative programme and for rejected students, careers advice if requested.
- 1.18 It is general practice that applicants will be informed of an interview/audition date or a decision within two weeks upon receipt of application to the college.

- 1.19 All applications for full time programmes should be made through UCAS. No preference will be given to applications which are received in advance of the main UCAS deadline date. Applications which are received after this date will be considered if places are still available.
- 1.20 In addition to attending their interview, applicants will be given the opportunity to visit the college at Open Days or by prior arrangement with the Programme Leader.
- 1.21 Applications from mature students who have non-standard qualifications or wish work experience to be taken into account as part of their application will be considered on an individual basis.
- 1.22 Applicants may be made any of the following offers:
- 1.22.1 **Unconditional offer:** Where an applicant has met the entry criteria for a programme and there are sufficient places remaining on the programme, an unconditional offer may be made. This is subject to the timely completion of the enrolment process.
 - 1.22.2 **Conditional offer:** Where an applicant is able to demonstrate that they are likely to meet the entry criteria for a programme by the enrolment period and there are sufficient places remaining on a programme, a conditional offer may be made. A conditional offer is subject to the achievement of the entry criteria and to the timely completion of the enrolment process. Applicants will be informed in writing of the conditions that they will have to meet before they will be enrolled onto the programme.
 - 1.22.3 **Course Correction:** Where an applicant has applied for a course, but is considered more suitable for an alternative at interview, another course will be offered.
- 1.23 In order for the College to effectively and fairly manage the application process, applicants may be required to respond to communication requesting confirmation that they still intend to take up the offer of a place. If an applicant does not positively respond to such a request, the offer may be changed to Subject to Availability at the discretion of the College.

- 1.24 In exceptional circumstances, the Higher Education Development Manager (HEDM) or the Assistant Principal can authorise entry onto a programme of study if an applicant has not fulfilled all the entry criteria for the programme. Applicants will be expected to demonstrate that they have a commitment to succeed, and they will be required to participate fully in any learning support which is considered necessary to achieve the qualification.
- 1.25 Where an application has been rejected, the applicant may appeal in writing to the (HEDM) if they believe that the policy has not been applied correctly in the processing of their application. Appeals will only be upheld where the Admissions Policy was not applied, and the incorrect application of the policy led to the rejection of the applicant. In the unlikely event of changes to programmes or cancelation of programmes, the college will not be held liable and the Admission Policy will not apply.
- 1.26 If a student decides they wish to transfer to an alternative higher education programme at NKC, they need to contact the HEIO in the first instance.
- 1.27 The admission of students with a declared criminal conviction is subject to assessment by the Assistant Principal (Teaching and Learning) with regard to the duty of care to the wider College community. All information disclosed is confidential and will be held in accordance with the requirements of the Data Protection Act 1988.
