What are T Levels?

T Levels are new courses which follow GCSEs and are equivalent to 3 A Levels. They are 2 year courses which have been developed in collaboration with employers and they are designed to be the gold standard technical option for young people aged 16-19 and to meet the needs of industry and prepare students for work, future training or study.

T Levels offer students a mixture of classroom/workshop/laboratory learning based on the chosen T Level. They also offer on-the-job experience during an industry placement of at least 315 hours (approximately 45 days). Students get valuable experience in the workplace and employers get an early sight of the new talent in their industry.

T Levels include:

- Technical knowledge and practical skills specific to the student's chosen industry or occupation.
- An industry placement of at least 45 days in their chosen industry or occupation.
- Relevant English and maths skills.
- Common workplace skills.

Students who achieve a T Level will get a nationally recognised certificate which employers will use as evidence in their recruitment.

What can I study?

Course Title	Location	Duration
T Level Technical Qualification in Construction: Design, Surveying and Planning (Level 3)	Tonbridge	2 Years
T Level Technical Qualification in Design & Development for Engineering and Manufacturing (Level 3)	Gravesend	2 Years
T Level Technical Qualification in Engineering, Manufacturing, Processing and Control (Level 3)	Gravesend	2 Years

Who are we working with?

North Kent College continues to develop opportunities for high quality work placements , a small selection of who we collaborate with is listed below:

- Balfour Beatty
- Berkeley Modular Ltd
- Ebbsfleet Development Corporation
- ISG
