Promote your current and future job opportunities

We are pleased to introduce our annual "Careers Fair". This event has been organised by our Level 3 Event & Hospitality students with the aim of connecting employers to active job seekers.

We welcome employers from a variety of industries and offer direct access to students studying at various levels, on specific vocational courses. You will have an area within the fair for a stand. We also have limited places available to run a short seminar to speak directly to your potential future workforce.

- **Opportunity to recruit and raise your company profile**
- **Perfect environment to promote your job and career opportunities**
- **Network with other employers**
- **Opportunity to deliver a seminar to promote your business**
